

HEALTH, SAFETY, AND ENVIRONMENT (HSE) MANAGEMENT SERVICES

■ As a leading supplier of health, safety and environment management PSM Co. offers you unrivaled resources and expertise. Plus, with our unique global reach, we can dispatch experienced and qualified safety engineers and coordinators to your building site or facility – wherever your operations are based. Our services include a set of processes and procedures in identifying potential hazards to a certain environment, developing best practices and customized Health, Safety, and Environment (HSE) manuals to reduce or remove those hazards, and then training people for accident prevention, accident response, etc. The customized Health, Safety, and Environment (HSE) manuals will be developed for each project to control, monitor and execute health and safety measures.
